

MACHINIST, CNC AND MANUAL

ALKAB Contract Manufacturing, Inc. is actively seeking highly skilled Manual and CNC Machinists.

We produce prototypes, single parts and small-lot runs; not production runs. Our Machinists are directly responsible for every aspect in the machining of the parts they are assigned which requires a high degree of skill and expertise. We recommend 5 years of machining experience minimum.

The individuals we are seeking are required to efficiently and productively:

- Interpret complex blueprints, including GD&T, to determine sequence of operations in machining a variety of parts.
- Set-up, fixture and machine all of the required features on a variety of parts on manual lathes and mills to specified requirements and tolerances.
- Set-up, fixture, program and machine all of the required features on a variety of parts at Trak CNC lathes and Trak CNC mills using the Trak CNC Controls to specified requirements and tolerances.
- Utilize multiple set-ups to machine parts with a variety of features to specified requirements and tolerances.
- Use inspection and measuring tools and equipment to verify conformance to specified requirements and tolerances.
- Communicate well and work well with others; specifically those who are involved or contribute in producing parts that you are assigned or co-assigned to machine.

We also expect the caliber of Machinists that we are seeking to have their own tools in the form of a well-equipped tool chest.

We currently have an excellent team of skilled craftspeople and do not want to add a weak link to the team. Those who do not have the skills and expertise we seek need not apply. If you have "*baggage*", personal issues, and/or dependencies that will impact your ability to excel as an employee or co-worker, please do not apply.

We are only seeking motivated MASTERS OF THE TRADE who are quality individuals. If this describes you, we want you on our team. You will be well compensated with competitive wages and benefits as well as a challenging and decent workplace.

If you are currently employed, underemployed or unemployed and have what it takes to enhance our company and our workplace, please respond as instructed below to explore what our company has to offer. Find out if you can do better for yourself and your family by joining our team. We look forward to having you.

Please submit your resume using one of the following methods:

- Email: sales@alkab.com (insert "Machinist" in the Subject Line)
- Fax: 724-335-7055 (ATTN: Human Resources)
- Mail: ALKAB Contract Manufacturing, Inc.
